Career Objective:

To obtain an entry-level position in data analysis, front-end development, or business systems where I can apply my MIS background, technical skills, and analytical mindset to add value and grow professionally.

Profile

Enthusiastic MIS graduate and accomplished handball referee aspiring to merge a passion for technology with a solid foundation in Management Information Systems. Eager to embark on a dynamic career as a software developer, leveraging analytical skills, programming proficiency, and a proven track record of making sound decisions in fast-paced environments. Seeking a challenging position that allows for continuous learning, professional growth, and meaningful contributions to innovative software projects.

Education

Faculty of Business, Alexandria University
Department: Management Information Systems
Cgpa: 3.38 / 4.0
